

HeartBrand Cattle Database Manager Position

Full-time Position | Harwood, Texas

Job Description

HeartBrand Cattle operates one of the most sophisticated, high-quality branded beef programs led by one of the nation's largest registered seedstock operations. HeartBrand Cattle is in search of a high-quality, motivated person to add to our experienced cattle team. This person will be responsible for field-based data collection and entry and being the direct administrator of the cattle management software system for our operation of 3,000 Full-Blood Registered Akaushi cows.

- Responsibilities and time would be split between fieldwork, in-office time as well as some travel
- The position will be based out of the Harwood, TX headquarters
- Cattle and animal science experience is highly recommended
- Would be the contact person and direct communicator of information from HeartBrand Cattle to the American Akaushi Association
- Be proficient in IT; including retrieving, processing and storing data
 - Microsoft
 - Dropbox
 - Company servers
 - DigitalBeef
- Contribute to cattle working, husbandry, along with DNA collection & processing
- Assist in managing HeartBrand Cattle website and provide input to HeartBrand Cattle marketing
- Oversee cattle inventory responsibilities along with feeder calf receiving and shipping
- Must be detailed oriented and have the ability to problem solve at a very high level

Job Qualifications

A successful candidate will excel at these skills:

- Attention to detail
- Quality control
- Teamwork
